Indigo,

I wanted to contact you and get you to sign a tenant resident contract when you have the time. No need for a background check. Please contact me so I can coordinate this with Ivan & Kim.

Sincerely,

Michael Huarte

Mr. Huarte,

I have told you many times I will not be signing a new contract with you and you have no legal right to require it. Please stop harassing me about this. The laws in Chapter 90 are more than sufficient - if your manager had any respect for the law. I have asked you to report to me what chemicals are in use on the property, how they are administered and in what quantities - I have every reason to believe that Ivan is dumping industrial bleach in the water pumps and that this is the cause of my health problems and several deaths in the park, including Barbara's. A buildup of rat poison or herbicides may also be a problem. You have ignored me except when I have threatened legal action, and I still want to know what association you or management have had with my family, if I have a child being hidden from me by the Jehovah's witnesses, or if Ivan has had anything to do with property that was either mine or intended for me. I want to know what involvement Highland View has had with psychological studies or criminal investigations - and I have a legal right to this. I asked for contact information for Leticia Padilla and that, too, was ignored. It's already on my agenda to contact the sheriff's office about unresolved issues on and off the property. Please consider that I plan to attach all of our previous correspondence, and please stop asking me to sign away my rights. I have given you the same answer, repeatedly. But you have not answered my questions, save for one shoddy legal disclaimer.

You do not seem concerned about the security of the residents here, nor the health of the environment - last week was another night of police and medics a block over, coinciding with a bunch of meth-related incidents in town, and that chlorine smell that lasts a couple of days has been back. More fish have died, and I don't have a choice but to spend another couple hundred dollars for a good under sink filter. Add to that, I've been told I'm not allowed to grow marijuana while other people apparently are... and you must know, Ivan has done anything he can to get rid of me. I'm not the kind of person to do something just because I can get away with it. I have followed the rules. Don't depend on loopholes and technicalities if you want to do legitimate business. Hire legitimate help. Ivan has broken the law many times, and I do believe there are serious violations of privacy here, including eavesdropping by electronic means (that management exploits), and Barbara believed this, too. I have not broken the law, except possibly by disturbing the peace, and yet I am treated like I'm a criminal for being here. Ivan tells people I don't have a right to be here, that I didn't ask his permission - but it was never up to him. If you have a problem with me being here, evict me. I am maintaining this space beautifully, as I have for many years, and the bills get paid. Nothing has changed. I'm still seeking justice. And when I decide to sell this place, you will be informed in writing. God knows, I don't plan to die here. I look forward to a time when I won't have to deal with so many people who care so little for themselves and others.
