The water bill showed up in my mailbox today but with no postmark so I don't know what delayed it. I still think collecting \$60k a year in utility fees should afford new pipes, and I am still pushing ahead with my mission to get some answers even though I've been mostly ignored this year. There are chemicals in use here improperly, and I want to know exactly what, how they're applied, and with what frequency and amount. I think OSHA requires this. I also still want the barbed wire taken down along the north end of the fence by the creek which I have been complaining about for years. Seriously. My biggest criticism of management regarding my investment here is that there seems to be more of a vested interest in letting the place deteriorate. There has clearly been no plan for improvements in the last decade and a half. The eavesdropping and violations of privacy, along with the drug trade here, I am blaming the Jehovah's Witnesses for, and that is an ongoing legal situation that currently involves law enforcement. I never did get a clear answer about whether or not it's legal to grow pot here, either, but originally I was told that I wasn't allowed to while other residents clearly have been. I will be happy to forward you a copy of the email I sent public works if you're interested - I've separated property concerns from civil issues. I have not achieved many of my goals this last year but I haven't given up on any of them. This could be a very long Winter. You will certainly be informed of any major changes.

I haven't received my water bill this month? You are likely aware that I've contacted the City with my concerns about the water and the billing, but although I believe adjustments may be in order I have continued to pay. I don't think I've overlooked the envelope but there have been issues with the mail before. Please let me know how much I should include this month with my rent.
